RE: Liquidation following notification of ITC negative determination of critical circumstances for carbon and certain alloy steel wire rod from the PRC for the period before 09/08/2014 (A-570-012)

1. On 01/08/2015, the U.S. International Trade Commission (ITC) determined that critical circumstances do not exist with respect to carbon and certain alloy steel wire rod from the People's Republic of China (PRC). As a result of the ITC's negative determination of critical circumstances, CBP should terminate the suspension of liquidation for all shipments of carbon and certain alloy steel wire rod from the PRC that were entered, or withdrawn from warehouse, for consumption before 09/08/2014 (the date of publication of Commerce's affirmative preliminary determination notice in the Federal Register). All such entries should be liquidated without regard to countervailing duties (i.e., return all cash deposits).
2. Notice of lifting of suspension of liquidation of entries of merchandise entered, or withdrawn from warehouse, for consumption before 09/08/2014 (the date of publication of Commerce's preliminary determination notice in the Federal Register) occurred with the publication of the ITC's final determination of its investigation (80 FR 1049, 01/08/2015). For all other shipments of carbon and certain alloy steel wire rod from the PRC, continue to collect cash deposits of estimated countervailing duties for the merchandise at the current rates unless instructed otherwise.
3. The interest provisions of section 778 of the Tariff Act of 1930, as amended, do not apply.
